

Are you in an emergency situation and in need of a temporary home?

- **Do you need distance from your everyday life?**
- **Do you want to retreat, in order to reorientate yourself?**
- **Do you need a roof over your head?**
- **Do you have to find a temporary home for yourself and your children?**

What Herberge für Frauen has to offer

With us, you will find acceptance, regardless of your nationality, religion or income.

We offer you supervised accommodation for a maximum of 6 months. You have your own room and share common rooms with other women and their children.

You have time to take stock of your future prospects. Professional women inform, advise and support you with regard to your next steps. They help you with issues of everyday life and can put you in touch with specialised advice centres, offices, doctors, lawyers etc., according to your needs. As for the financing of your stay in the hostel, we clarify this with you if necessary.

We cannot accept women who are underage, or addicted to alcohol or drugs. The same applies to women who need external care due to illness or disability.
